we are stained of adoptive
parents. Our existence is
permitted if under devious
family living conditions. From
the dark, suffering exudes from
our force and by the light,
our adoptive members are
vulnerable. I am only of

The Mother One brought in an infant; mine as she said, "Nathan, this is the last baby you have ever seen and the last one you will have."

She cut the eyes out of the infant and round adhesive bandages were placed.

She said, "Let the nemon starve." And as it did, it died of an infection, "I'm sorry, Mider Nemon," the harsh woman said, "...you just died of a lack of treatment. She fed penicillin to a dog I never knew

I will say that as much of the

I was placed back in the room.
Nancy (Barn) was still up at
the front of the room. As a

small body spent about 2 1/2

which it was by far) in a tonic.
Methods were used to touch my

I had a bath, I had a shower

I let the soap go as diarrhea

to the floor. I later realized
I was upon a fine soft

light maroon curtains and
under the heavy items there were
soft pink. I felt the liquid

I got back to school and I

their parents had left me.)
